MODERNITY COLLECTION

Abstract compositions, contemporary elements. Glimpses of art and absolute modernity. This presents elements of abstract art, with the juxtaposition of strong colours, tears, wallpaper and print art which recall a late twentieth century pop atmosphere. Collages which share calligraphic elements, brushstrokes of intense tones, or water colour strokes, with repetitive patterns, scratching and Old School references. Modernity is a collection which combines a vast set of contemporary references - optical, graffiti and vintage – with urban and sign art, in order to give an industrial and metropolitan touch to wall surfaces in any environment, with a large living or open space inspiration. The nuances of the Modernity collection is composed of a range of colours from grey tones, metallic and material references to an explosion of vivid, bight tones, with intense shades of blue, red and ochre. These blend cleverly with prints and design elements, to create an abstract and profoundly artistic style.
